A MESSAGE FROM MARIO

"Hello! How have you been? It’s been such a long time since we’ve seen each other. Bowser is up to his old tricks again, so Luigi and I are going on another adventure. You’re welcome to come along."

"This time it’s Super Mario Bros. 3, the latest in the Super Mario Brothers series. You’ll experience lots of excitement as your journey unfolds. For beginners and seasoned veterans of our previous games, this one is going to be a lot of fun! Let’s look at Super Mario Bros. 3 in a bit more detail."

Bowser is back!!!

"Ha Ha Ha! These are my 7 children that are going to help me take over the Mushroom World!"

**STORY**

The Mushroom Kingdom has been a peaceful place thanks to the brave deeds of Mario and Luigi. The Mushroom Kingdom forms an entrance to the Mushroom World where all is not well. Bowser has sent his 7 children to make mischief as they please in the normally peaceful Mushroom World. They stole the royal magic wands from each country in the Mushroom World and used them to turn their kings into animals. Mario and Luigi must recover the royal magic wands from Bowser’s 7 kids to return the kings to their true forms. “Goodbye and good luck!” said the Princess and Toad as Mario and Luigi set off on their journey deep into the Mushroom World.

“We took 7 wands from the 7 kings. Each of us has one. Our father has instructed us to protect the wands.”

**CONTROLLER OPERATION**

For the 1 player game use controller 1
For the 2 player game use controllers 1 and 2

Controller 1 / Controller 2

- A Button
- B Button
- START Button
- SELECT Button
- Control Pad

**Control Pad**

- Up: Mario can enter a door.
- If you press the A Button at the same time, Mario can jump up out of water.
- If you press the A Button at the same time, Mario can enter some upside-down pipes.
- Down: Mario can squat (except for Frog Mario.)
- Mario can enter some pipes.
- When the ground slopes, Mario can slide down it (except for Frog Mario.)
- Left and Right: Mario can walk to the left and right. If you hold the B Button as you go left or right, Mario will run.
**A Button**

* Jump
The longer you press the A Button, the higher Mario will jump.

* Swim
In the water, Mario can swim by repeatedly pressing the A Button.
If Mario has the Frog Suit, he can swim by using just the Control Pad. If you use the A Button, Mario can swim even faster.

* Fly/Float
After using the A Button to jump, Tanooki Mario and Raccoon Mario can fly or float for a limited time by pressing the A Button repeatedly.

* Super Jump
When Mario jumps on an enemy, he can jump very high by pressing the A Button.

---

**B Button**

* Accelerate
Pressing the B Button while walking will make Mario accelerate. When Mario is moving fast, he can jump higher and farther. If you continue to accelerate, the Power Meter (▷▷▷▷▷▷(P)) will increase.
When the Power Meter is all the way to the top, Mario's arms open, a whistle blows and the (P) will flash. When this happens, you can press the A Button repeatedly to fly.

* Pick up a shell
After you have jumped on a Koopa, you can pick up the shell by hitting it from the side while you have the B Button pressed. To kick the shell, let go of the B Button.
(Hint: This is very useful for breaking blocks in odd places.)

* Wag your tail
Tanooki Mario or Raccoon Mario can make a “tail attack” when you press the B Button. With your tail, you can break blocks and defeat some enemies.
* Throw Fireballs
If Mario picks up a Fire Flower, he can throw fireballs by pressing the B Button.

* Turn into a Statue
Tanooki Mario can turn into a statue for a short period of time by pressing the B Button and down on the Control Pad at the same time. While Mario is a statue, he cannot be harmed.

“Grrrr. You’re pretty tricky. With all of these new moves, Mario will be difficult to beat. I’d better report this to our Dad!”

SELECT Button
* The SELECT Button is used to move the cursor on the title screen and on the “game over” screen.

START Button
* The START Button will start your game.

* Pause Function
If you wish to pause your game, press the START Button. To resume play, press the START Button again.

How to Play Super Mario Bros. 3

There are 8 kingdoms in the Mushroom World where Mario’s adventures take place. Each kingdom has its own map. Mario can choose any road, but on the map there are a lot of points that you can’t pass if you don’t clear an action scene. At the start of the game, you get five players (the number of Marios remaining (4) will be shown.) In the game there are places where you can get power up items and even get extra Marios (1-UPS). You must get the royal magic wands back from Bowser’s 7 children.

The title screen will appear if you press the START Button while the game is in the demonstration mode. On the title screen, you can select a 1 player or 2 player game using the SELECT Button. If you press START again, the map of World 1 will appear and your game will begin.

"Ha ha! Mario and his friends must be getting very nervous now. I can hardly wait to meet up with him!"

How to Play the 1 Player Game

This is the World 1 map screen. Move Mario to the square with the “1” in it and press the A Button. This will make the action scene for World 1-1 appear.
START PANEL
Mario starts from here.

ACTION SCENE PANEL
This panel contains an action scene. If Mario gets defeated while in an action scene, he will be put back on the World map.

BLOCKS
Hit blocks from the bottom or ram them from the side. A useful item might pop out!

- Brick
  Super Mario can break this.

- Switch Block
  When you touch this, something strange will happen.

- Question Block
  Something interesting is bound to come out.

- Jump Block
  If your timing’s right, you can jump very high.

(There are several other types of blocks too!)

(There are many more surprises that aren’t listed here!)

GAIN MORE POWER BY GATHERING ITEMS

- Mario
- Super Mario
- Super Leaf
- Fire Flower
- Super Mushroom
- Fire Mario
- Raccoon Mario
**LIFTS**
There are several types of lifts.

- **Rail Lifts**
  Travel along the rails.

- **Rotary Lifts**
  Sometimes these lifts spin. Be careful or you'll be spun off!

- **Donut Lift**
  More of a “drop” than a lift. When you step on these, they will shake and drop.

- **Directional Lift**
  You can control the direction of this lift by jumping and pressing the desired direction while in the air.

**GOAL**
At the end of each action scene, you'll find a goal. In the goal, three kinds of cards (Mushroom, Flower, and Star) will flash. Jump up and touch the goal to grab a card and clear the level. If you get three cards, you will get an extra Mario. If you get three cards of the same type, you'll get even more extra Marios (see next page.)

---

**BEWARE! THE FOLLOWING ARE DEADLY!**
You lose one Mario:
- When you are touched by an enemy.
- When you fall into a hole or into fire.
- When you run out of time (time remaining goes down to 0.)

- The Cards are displayed at the bottom of the screen.
- At the end of an action scene, a bonus is added to your score depending on how much time you have left.
- Any enemies remaining on the screen when you touch the goal will be turned into coins.
CLEAR PANEL
When you clear on action scene, this panel appears. You may pass through this point freely.
(In the 2 player mode, if Luigi clears it, an “L” will be displayed.)

SPADE PANEL
Here, you play a slot machine type of game. The object is to line up the pictures. Every time you push the A Button, it will cause a line to slow down and stop. If you complete a picture, you can get extra Marios.

- Mushroom Picture: 2 Extra Marios
- Flower Picture: 3 Extra Marios
- Star Picture: 5 Extra Marios

(You can pass this point without playing if you wish.)

N-MARK SPADE PANEL
Occasionally this panel will appear on the map scene. It contains a “memory match” card game. Choose a card using the Control Pad then select it with the A Button. Then choose another card. If they match, you will receive the item on the cards. You can continue to play until you miss twice.

MINI-FORTRESS
The Mini-Fortresses are guarded by Boom Boom, a tough servant of Bowser. When you defeat him you get a magic ball and the Mini-Fortress tumbles to the ground. And the Locked Door gets unlocked.

TOAD’S HOUSE
Mario can get some useful items here. Stand in front of one of the treasure boxes and press the B Button. The treasure box will open and an item will pop out. (You can pass Toad’s house without entering if you wish.)
HAMMER BROTHERS

The Hammer Brothers are bound to be hanging around somewhere on the map. When you meet up with them, a battle will take place. If you can defeat them, you will be rewarded with a special item.
(The Hammer Brothers differ from world to world.)

ITEMS YOU CAN USE ON THE MAP SCREEN

The items that you can get in Toad’s house or by beating the Hammer Brothers can be used on the Map Screen. You can only use one item at a time. While on the Map Screen, press the B Button to display the items that you possess (they will be shown in the box at the bottom of the screen.) Choose the item you wish to use by using left and right on the + Control Pad and activate it with the A Button. If you have more than one screen full of items, you can use up and down on the + Control Pad to flip to the different screens.
You can collect a maximum of 28 items. If you pick up a 29th item, it will take the place of the 28th item.
“Wow! Mario sure has some neat new tricks... I hope we can stop him!”

FORTRESS
This is the end fortress in World 1. The king has been transformed by one of Bowser’s kids. You must retrieve the royal magic wand!

This is the guardian of World 1. You must jump on his head three times to defeat him. If you don’t succeed in defeating him, the airship will move to a different place on the Map Screen. Chase it and challenge him again!

When you do defeat him, you get the magic wand and you are able to change the king back to his human form. Then it’s on to World 2...

GAME OVER
When you lose all of your Marios, the game over screen appears. Choose either CONTINUE or END with the Control Pad and press the START Button.

If You Choose CONTINUE
The game starts again from the beginning of the World that you were in.
* You get to keep all of your items.
* All clear panels go back to being action scene panels.
* If you have destroyed the Mini-Fortress, it will stay destroyed.

If You Choose END
* You will go back to World 1.
HOW TO PLAY THE 2 PLAYER GAME

In the 2 player game, player 1 (with controller 1) is Mario. Player 2 (with controller 2) is Luigi. Player 1 and player 2 take turns clearing the action scene panels. The two players can choose to cooperate or to compete against each other. If one player is in the same space on the map as the other player, then the 2 player battle mode (shown below) can be entered by pressing the A Button.

In the battle mode (just like the game Mario Bros.), when one player is punched from beneath by the other player, one of the punched player’s cards will pop out. In this way, you can ‘steal’ your opponent’s cards, or even get rid of cards that you don’t want.

In the battle mode, the losing player is moved back to the point where the battle took place. The winner can continue into the game.

In the 2 player battle mode, you can’t lose any of your extra players (even if you get hit by an enemy!)

HOW TO PLAY THE ‘MARIO BROS.’ GAME

One after another, Spiny, Crab, Fighter Fly and others jumps out of the pipes. The object of this game is to punch these enemies from below to overturn them, then kick them away. While the enemies are overturned, they can’t move for a while. If you let an enemy stay overturned for long enough, they will get back up and be very angry! If you punch the POW you can overturn all enemies on the floor at once.

The POW disappears after being punched three times. When a total of 5 enemies have been beaten, the player wins. If you are touched by an enemy, you will lose.

Spiny  Crab  Fighter Fly  POW
In the 2 player battle mode, there are 3 other types of games (randomly picked).

1. First one to get 5 coins wins.
2. Avoid the flames... get the coins!
3. 5 coins are hidden in the blocks.

GAME OVER IN THE 2 PLAYER MODE

In the 2 player mode, when the game is over for one player, the game over screen will appear. Choose CONTINUE or END by using the Control Pad, then the START Button.

If you choose CONTINUE
The game will start at the beginning of the world that you were in with all clear panels changed back to action scene panels.

If you choose END
The other player will continue their game alone.

THE EIGHT KINGDOMS

Let's take a look at the 8 kingdoms that make up the Mushroom World. Each of them are truly unique... often so beautiful that you will forget that you are in a battle against the villainous Bowser. Stay alert! Anything can happen in the Mushroom World.

World 1: Grass Land

This is where Mario starts his journey. Many slopes and new enemies await your every move.
World 2 Desert Land
Be careful! The desert has conquered its share of weary travellers. Look out for the quicksand and be ready for the tricks ahead in the pyramid.

World 3 Water Land
This world is all wet! Only a great swimmer will be able to get through. Do your best to find a Frog Suit—it will help you immensely.

World 4 Giant Land
In this world, everything - the mountains, the rivers, the terrain, even the enemies - are huge. Even Super Mario is small compared to the Giants he will meet here.

World 5 Sky Land
Sky Land has many difficult sections. Raccoon Mario’s flying ability is bound to help him here.
World 6 Ice Land
Everything is slippery in Ice Land. Be cautious as you proceed. This world is BIG, you may find some interesting items.

World 7 Pipe Land
Left and right, it seems that all you can see is a maze of pipes! With so many pipes around, there’s bound to be lots of plant life to try to slow down Mario. Don’t get discouraged, you’re very close to your goal.

World 8 Dark Land

"How far can Mario go? I hope he doesn’t make it this far. Dad has many complicated tricks waiting for him in the Dark Land. I’ve even heard about some new weapon that dad’s been making."
THE CHARACTERS

A host of new characters have joined Bowser and his turtle tribe. With this information on these new enemies, you’ll be well prepared.

Enemies above ground

Para-Goomba
A new flying version of an old familiar enemy. Once you jump on it, it loses its wings.

Para-Beetles
Mario can ride on top of these flying beetles.

Micro-Goombas
These are Para-Goomba’s children that will cling to Mario. Pressing the A Button rapidly is the only way to get them off of Mario.

Firesnake
A moving chain of fireballs that can pass through many things to get to Mario.

Enemies in the Water

Bloober with kids
Bloober swims underwater with its children. It has a relative, the Scattering Bloober, whose children scatter in all directions.

Cheep-cheep
Swimming in the sea, this thorny fish will try to block Mario’s path.

Jelectro
This electric jellyfish may sit still anywhere in the sea to get in Mario’s way. They are invincible!

Lava Lotus
An artificial flower that grows and blooms deep in the sea. Look out for the lava balls that it will release.

Fire Chomp
A black ball followed by a chain of fire that shoots fireballs at Mario. Look out! They can explode!

Chain Chomp
Although tied to a block by a chain, Chain Chomp is quite a tough enemy. Only invincible Mario is able to defeat him.
Enemies underground

Buzzy Beetle
He’s back again. This time he can walk on the ceiling.

Spike
Spike is usually easy going. But once he sees Mario he starts throwing spiked balls at him. Spike occasionally appears above ground too.

Bob-omb
As long as he’s walking, Bob-omb seems cute. Be very careful when he starts to flash. He will explode destroying everything around him.

Enemy in an Airship

Rocky Wrench
Rocky is a turtle who kind of looks like a mole. He will suddenly appear and start to throw wrenches at Mario.

Enemies in the Fortress

Thwomp
If Mario comes close, Thwomp will try to crush him. Since Thwomp is covered with thorns, Mario can’t touch him.

Rotodisc
Spins around making maneuvers difficult for Mario.

“Boo” Diddly
Boo is too shy to look anyone in the face. But when you turn around...

Hot Foot
Usually, Hot Foot stays on a burning candle. If Mario gets close, Hot Foot will start to chase him.
Dry Bones
A mummified turtle? No matter how many times you jump on it, it’ll come back to life.

Stretch
A ghost that hides under the floor waiting for anyone to come along.

The Boss of the Mini-Fortresses

Boom Boom
This is the boss that controls the Mini-Fortresses. Boom Boom hurls himself at Mario with his arms swinging. Mario needs to jump on Boom Boom 3 times to defeat him. Be careful though, Boom Boom gets quicker every time he gets jumped on.

The Pirana Plants

Venus Fire Trap
This pirana plant emits fireballs. They come in different sizes and are very dangerous.

Ptoolie
These flowers blow out spiked balls from their mouths. There are walking ones as well as ones that live in pipes.

Walking Piranas
These small flowers jump up when Mario gets close. Some of them can move around.

Munchers
Munchers wait quietly for Mario. They are invincible, no attacks can hurt them.
Hammer Brothers

Boomerang Brothers
They have boomerangs instead of hammers. They can throw two boomerangs at once.

Fire Brothers
These guys shoot balls of fire at Mario.

Sledge Brothers
The Sledge Brothers shake the earth when they jump. They also throw hammers. Try to jump up when the Sledge Brothers hit the ground. If you don’t, Mario will lose his footing.

“Quite an exciting game isn’t it? I’m glad to know that we have such powerful enemies helping us out. We have more guys helping us besides these... but don’t tell Mario.”

To Mario’s Players:

Thanks for selecting Super Mario Bros. 3. We’ve been working hard to make this game even better than Super Mario Bros. 1 and 2. In addition to the action scenes, we’ve added a World Map on which you can plot your progress as well as play a new 2 player game. In Super Mario Bros. 3, you will find many more hidden things than in the first two games in the series. We think that you will find it much more challenging as well. Have fun!

Yours truly,
Mario’s Staff
COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that control Deck and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:
